Education

Nigerian University of Technology and Management (NUTM)

2024 – In Progress

BSc in Cybersecurity Science

Projects

AP Calculus BC Course Website | *Client Project*

WordPress | **Elementor** | **PHP** | **CSS**

- Built a complete **WordPress website** for an online course business: public pages, a **password-protected student area**, tuition payment via **MemberPress** and **Stripe**, and a community forum via **wpForo**.
- Customised **Elementor** layouts throughout: page templates, custom CSS, and responsive design across all devices.
- Set up **WP Mail SMTP** for reliable email delivery, **UpdraftPlus** for scheduled backups, and **Wordfence** for security monitoring.
- Migrated 320+ documents to the server via **FTP** and indexed them through the WordPress Media Library.
- Delivered a **full client handover**: written documentation, plugin guidance, and training so the client could manage the site independently.

Wisdom Trust (Charity Website) | *Team Project, In Progress*

WordPress | **Elementor** | **CSS**

- Contributing **design direction**, **custom Elementor page layouts**, theme customisation, contact form setup, and mobile responsiveness within a collaborative developer team.

Hashebi | *Live*

Next.js | **TypeScript** | **TailwindCSS**

- Designed and built a **responsive corporate website** end-to-end: layout, component architecture, and Vercel deployment within a short contract window.

Klo's House of Fashion | *Live*

React | **Next.js** | **TypeScript** | **TailwindCSS**

- Built a **mobile-first e-commerce storefront** with responsive layouts and a brand-aligned UI; maintained and iterated post-launch based on client feedback.

Sidedish Foods | *Live*

JavaScript | **Node.js** | **HTML5** | **CSS3**

- Designed and built a full client-facing restaurant website with ordering workflow and an internal analytics dashboard; maintained post-launch.

Work Experience

Susan Gilleran / Calculus Learning Center

2026

Contract WordPress Developer

Remote

- Built and delivered a full **WordPress and Elementor** site with payment integration, student account management, backup configuration, security setup, and post-launch support.

Wisdom Trust (Charity)

Jan 2026 – Present

WordPress Developer (Team Project)

Remote

- Collaborating with a development team on a **WordPress and Elementor** charity website, contributing custom layouts, theme customisation, and mobile responsiveness.

Hashebi Construction

Jan 2026 – Feb 2026

Contract Web Developer

Remote

- Delivered a full production website end-to-end: design, responsive development, and deployment within a short contract window.

Klo's House of Fashion

Aug 2025 – Present

Web Developer

Remote

- Own frontend development and feature delivery for a live e-commerce platform; primary client contact post-launch.
